

HS4.301: Environment and Politics in India

Quiz 2

Q:

What are the various imaginations around coal mining in India? In other words, identify at least THREE different ways in which one can think about (or visualize) the extraction of coal. Each variety should vary from the other in the following ways:

1. A DIFFERENT style of managing labour characterizes each one
2. Each one has varying degrees of formal recognition
3. Each one is identified by a particular VALUE system which characterizes it, helps identify it
4. Each one has a specific set of actors working around it
